

## **Ground Handling System Market is estimated to be US\$ 13.08 billion by 2030 with a CAGR of 7.1% during the forecast period**

[Ground Handling System Market](#) accounted for US\$ 6.63 billion in 2020 and is estimated to be US\$ 13.08 billion by 2030 and is anticipated to register a CAGR of 7.1%. Ground handling is referred to wide range of services provided to aircraft ground repositioning, or to facilitate an aircraft flight. Ground handling system include service and functions for both customer service and ramp service. Some of the customer service functions include ticketing, check-in, baggage sorting, lobby management, gate assignment, lounge management, baggage service and many more. Further, the ramp services include marshalling, chocking and connection/disconnection of ground services, baggage and freight handling, aircraft towing, refueling and many more.

**The report " Global Ground Handling System Market, By Type (Cabin Service, Catering, Ramp Service, Passenger Service, and Field Operation Service), By Application (Civil and Military), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Market Trends, Analysis, and Forecast till 2029"**

### **Key Highlights:**

- In October 2020, EnerSys launched the NexSys PURE PACK battery and on-board charger system. The new comprehensive solution consists of the latest generation of NexSys PURE Thin Plate Pure Lead (TPPL) batteries, combined with an integrated Delta-Q on-board charger and Wi-iQ battery monitoring device.
- In April 2019, Cavotec received a contract worth USD 9.6 million from the Bahrain International Airport to provide next-generation aircraft ground cooling systems. The contract also includes designing, engineering, installing, testing, and commissioning of Cavotec Sub-freezing Dual Blower DX Arctic PCA units as well as delivery of in-ground pit systems that reduce the number of vehicles required to service an aircraft.

### **Analyst View:**

Increasing number of people opting for air travel has led to airport expansion, resulting in additional of new terminals, gates, passenger service equipment and other infrastructure, and each gate requires ground handling system, which supports the growth of market. Innovations in technologies used for ground support equipment, such as new batteries, fast charging ports with low maintenance cost is also expected to foster the growth of market.

**Key Market Insights from the report:**

Global Ground Handling System Market accounted for US\$ 6.63 billion in 2020 and is estimated to be US\$ 13.08 billion by 2030 and is anticipated to register a CAGR of 7.1%. Global Ground Handling System Market is segmented into product type, application and region.

- Based on Type, Global Ground Handling System Market is segmented into Cabin Service, Catering, Ramp Service, Passenger Service and Field Operation Service.
- Based on Application Global Ground Handling System Market is segmented into Civil and Military.
- By Region, the Global Ground Handling System Market is segmented into North America, Europe, Asia Pacific, Latin America, and Middle East & Africa.

#### **Competitive Landscape & their strategies of Global Ground Handling System Market:**

The key players in the Global Ground Handling System Market includes Mallaghan Engineering Ltd., Cavotec SA, JBT Corporation, Cargotec Company, SAAB Group, Inc., Beumer Group, Weihai Guangtai Airports Equipment, Aviapartner NV, TAV Airports Holding Co., and Skyplan Services Limited

The market provides detailed information regarding the industrial base, productivity, strengths, manufacturers, and recent trends which will help companies enlarge the businesses and promote financial growth. Furthermore, the report exhibits dynamic factors including segments, sub-segments, regional marketplaces, competition, dominant key players, and market forecasts. In addition, the market includes recent collaborations, mergers, acquisitions, and partnerships along with regulatory frameworks across different regions impacting the market trajectory. Recent technological advances and innovations influencing the global market are included in the report.

#### **About Prophecy Market Insights**

Prophecy Market Insights is specialized market research, analytics, marketing/business strategy, and solutions that offers strategic and tactical support to clients for making well-informed business decisions and to identify and achieve high-value opportunities in the target business area. We also help our clients to address business challenges and provide the best possible solutions to overcome them and transform their business.

#### **Some Important Points Answered in this Market Report Are Given Below:**

- Explains an overview of the product portfolio, including product development, planning, and positioning
- Explains details about key operational strategies with a focus on R&D strategies, corporate structure, localization strategies, production capabilities, and financial performance of various companies.
- Detailed analysis of the market revenue over the forecasted period.
- Examining various outlooks of the market with the help of Porter's five forces analysis, PEST & SWOT Analysis.
- Study on the segments that are anticipated to dominate the market.
- Study on the regional analysis that is expected to register the highest growth over the forecast period
