

**Surgical Microscopes Market** accounted for US\$ 1.5 billion in 2020 and is estimated to be US\$ 4.4 billion by 2030 and is anticipated to register a CAGR of 11.5%. A surgical microscope is an optical microscope designed to be used in a surgical procedure for performing microsurgery. Surgical microscope aids in operating procedures involving fine nerves, blood vessels and other small anatomic features, by providing an enlarged stereoscopic visual field of the surgical site. The magnification and resolution of the surgical microscope depend upon the applications. The surgical microscope application includes ophthalmic eye surgery, general surgery, mucogingival surgery, management of periodontal flaps, etc.

The report **“Global Surgical Microscopes Market, By Application (Dentistry, Gynecology & Urology, ENT, Neurosurgery & Spine Surgery, Oncology, Ophthalmology, Plastic & Reconstructive Surgery, and Other Applications), By End User (Hospitals, Dentist Clinic, and Other End Users), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Trends, Analysis and Forecast till 2030”**

**Key Highlights:**

- In March 2020, Carl Zeiss acquired Saxonix Systems AG, a customized software solution provider. The acquired company now operates as Carl Zeiss Digital Innovation, offering customized software solutions to the customers.

**Analyst View:**

Increasing incidence of chronic disease such as cancer, cardiovascular disease, etc., increase in health expenditure, growing population, increasing ageing population, increasing prevalence of malignant tumours and other problematic conditions are the factors anticipated to propel the growth of the global surgical microscopes market. However, stringent regulatory authority may hinder the growth of the global market during the forecast period. Nevertheless, surgical microscopes offer the opportunity for the development of the specialist, while performing basic therapeutic surgeries.

**Key Market Insights from the report:**

The Global Surgical Microscopes Market accounted for US\$ 1.5 billion in 2020 and is estimated to be US\$ 4.4 billion by 2030 and is anticipated to register a CAGR of 11.5%. The global surgical microscopes market is segmented based on application, end-user and region.

- Based on application, the global surgical microscopes market is segmented into the dentistry, gynaecology & urology, ENT, neurosurgery & spine surgery, oncology, ophthalmology, plastic & reconstructive surgery, and other applications.
- By end-user, the target market is segmented into hospitals, dentist clinic, and other end users. Hospital end-user segment accounts for the largest end-user microscope segment.

- By region, the Global Surgical Microscopes Market is segmented into North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. North America dominates the Global Surgical Microscopes Market in terms of revenue contribution as related to that of markets in other regions.

### **Competitive Landscape:**

The key players operating the global surgical microscopes market involves Alcon (Novartis AG), Leica Microsystems (Danaher), Topcon, Zeiss International, Haag-Streit Surgical GmbH, Leica Microsystems, Allition (Wuzhou), Topcon, Takagi Corporation, Seiler, ACCU-SCOPE.

The market provides detailed information regarding the industrial base, productivity, strengths, manufacturers, and recent trends which will help companies enlarge the businesses and promote financial growth. Furthermore, the report exhibits dynamic factors including segments, sub-segments, regional marketplaces, competition, dominant key players, and market forecasts. In addition, the market includes recent collaborations, mergers, acquisitions, and partnerships along with regulatory frameworks across different regions impacting the market trajectory. Recent technological advances and innovations influencing the global market are included in the report.

### **About Prophecy Market Insights**

Prophecy Market Insights is specialized market research, analytics, marketing/business strategy, and solutions that offers strategic and tactical support to clients for making well-informed business decisions and to identify and achieve high-value opportunities in the target business area. We also help our clients to address business challenges and provide the best possible solutions to overcome them and transform their business.

### **Some Important Points Answered in this Market Report Are Given Below:**

- Explains an overview of the product portfolio, including product development, planning, and positioning
- Explains details about key operational strategies with a focus on R&D strategies, corporate structure, localization strategies, production capabilities, and financial performance of various companies.
- Detailed analysis of the market revenue over the forecasted period.
- Examining various outlooks of the market with the help of Porter's five forces analysis, PEST & SWOT Analysis.
- Study on the segments that are anticipated to dominate the market.
- Study on the regional analysis that is expected to register the highest growth over the forecast period

### **Key Topics Covered**

1. **Introduction**
  - Study Deliverables
  - Study Assumptions
  - Scope of the Study
2. **Research Methodology**
3. **Executive Summary**
  - Opportunity Map Analysis
  - Market at Glance
  - Market Share (%) and BPS Analysis, by Region

- Competitive Landscape
- Heat Map Analysis
- Market Presence and Specificity Analysis

4. **Investment Analysis**

5. **Competitive Analysis**
