Global Cell Surface Makers Market is estimated to be US\$ 1221.63 Million by 2030 with a CAGR of 7.50% during the forecast period

Cell surface makers market accounted for US\$ 594.05 million in 2020 and is estimated to be US\$ 1221.63 million by 2030 and is anticipated to register a CAGR of 7.50%. Cell surface markers are special proteins expressed on the surface of cells or carbohydrates attached to the cell membrane that often conveniently serve as markers of specific cell types. For example, T cell and B cell surface markers identify their lineage and stage in the differentiation process. These markers are the chief components in the categorization and identification of cells including macrophages, lymphocytes, tumor cells, monocytes, and other cells primarily related to immunology. Cell surface marker analysis can allow simplification of disease identification and diagnosis, drug discovery, and sample preparation. This analysis can take place with different samples, including blood, bone marrow, lymph nodes, and other tissues.

The report "Global Cell Surface Makers Market, By Products (Flow Cytometry, Hematology Analyzers, Cell Imaging Systems, and Reagents and Kits), By Applications (Disease Diagnosis, and Research and Drug Discovery), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Trends, Analysis and Forecast till 2030"

Key Highlights:

- In 2018, QIAGEN opened its new shared service center in Manila—QIAGEN Business Services (QBS). QBS will provide services associated with supply chain management, customer care, accounting, technical services, and other sales support activities to QIAGEN'S global operations.
- In 2018, Thermo Fisher Scientific acquired the Advanced Bioprocessing business of Becton, Dickinson and Company. This may be integrated into the Life Sciences Solutions segment of Thermo Fisher.
- In 2018, Abcam entered into an exclusive license agreement with Roche. Under this
 agreement, the merchandise portfolio of Spring Bioscience Corporation has been licensed
 to Abcam for research use only (RUO) applications.

Analyst View:

The rise of new markets will lead to a high demand for new antibodies, therefore boosting the demand for the global cell surface markers market. Furthermore, the rising occurrence of chronic diseases such as autoimmune disorders and cancer, the simplification of analysis procedures, and the rising automation of solutions and technologies are also amongst the major factors augmenting the growth of the global market.

Key Market Insights from the report:

The global cell surface makers market accounted for US\$ 594.05 million in 2020 and is estimated to be US\$ 1221.63 million by 2030 and is anticipated to register a CAGR of 7.50%. The global cell surface makers market is segmented based on product, application, and region.

- By Product, the market is segmented into flow cytometry, hematology analyzers, and cell imaging systems, and reagents and kits.
- By Application, the market is segmented into disease diagnosis, and research and drug discovery.
- By Region, the Global Cell Surface Maker Market is segmented into North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. North America region is expected to be the largest cell surface maker market.

Competitive Landscape:

The key players operating the global cell surface makers market involves Thermo Fisher Scientific, QIAGEN N.V., Becton, Dickinson and Company, F. Hoffman-La Roche, Bio-Rad Laboratories, Danaher Corporation, Abcam, GenScript, BioLegend, Cell Signaling Technology (US), Merck KGaA, and Bio-Techne.

The market provides detailed information regarding the industrial base, productivity, strengths, manufacturers, and recent trends which will help companies enlarge the businesses and promote financial growth. Furthermore, the report exhibits dynamic factors including segments, subsegments, regional marketplaces, competition, dominant key players, and market forecasts. In addition, the market includes recent collaborations, mergers, acquisitions, and partnerships along with regulatory frameworks across different regions impacting the market trajectory. Recent technological advances and innovations influencing the global market are included in the report.

About Prophecy Market Insights

Prophecy Market Insights is specialized market research, analytics, marketing/business strategy, and solutions that offers strategic and tactical support to clients for making well-informed business decisions and to identify and achieve high-value opportunities in the target business area. We also help our clients to address business challenges and provide the best possible solutions to overcome them and transform their business.

Some Important Points Answered in this Market Report Are Given Below:

- Explains an overview of the product portfolio, including product development, planning, and positioning.
- Explains details about key operational strategies with a focus on R&D strategies, corporate structure, localization strategies, production capabilities, and financial performance of various companies.
- Detailed analysis of the market revenue over the forecasted period.
- Examining various outlooks of the market with the help of Porter's five forces analysis, PEST & SWOT Analysis.
- Study on the segments that are anticipated to dominate the market.
- Study on the regional analysis that is expected to register the highest growth over the forecast period.

Key Topics Covered

1. Introduction

• Study Deliverables

- Study Assumptions
- Scope of the Study

2. Research Methodology

- 3. **Executive Summary**
 - Opportunity Map Analysis
 - Market at Glance
 - Market Share (%) and BPS Analysis, by Region
 - Competitive Landscape
 - Heat Map Analysis
 - Market Presence and Specificity Analysis
- 4. Investment Analysis
- 5. Competitive Analysis
